To whom it may concern,

I would like to take this opportunity to raise a concern about the education provision for my children. We live in Elsdon and as such use Otterburn first school as this is our closest school, which makes sense. The query I would like to raise is why we have to use our closest school for primary education but not secondary? We have 3 secondary/middle/high schools closer to Elsdon (Morpeth, Ponteland and Hexham) than Haydon Bridge so why not use them rather than making kids travel as far as HBHS at such a young age. It particularly makes no sense now the boarding facilities are closed. I think that this would be the time to look at the catchment for Otterburn school for secondary education as it makes no sense, for well being as well as financially, to continue to send kids to HBHS.

Please get in touch if you would like any further information from myself.

Yours sincerely

Jennifer
