RESPONSE FROM THE GOVERNORS OF THE BELLINGHAM PARTNERSHIP OF SCHOOLS

The Governing body has met to discuss the consultation about the education in the West of Northumberland.

The Bellingham Partnership of Governors is exploring a range of options covering all ages up to thirteen years and involving some Multi Academy Trusts. The options under consideration are long-term and respond to the needs of the local communities and their children growing up in a remote rural area.

The Governors of the Bellingham Partnership of Schools felt that they were unable to answer many of the questions posed by the consultation as they were very heavily weighted toward the Local Authority plans for education.
