Introduction

This section of the policy is school-specific. Detailed information on managing services and construction projects independently is given in Section E3 of the Schools' Health and Safety Policy and Manual, issued in November 2015. That section details a safety protocol for schools that wish to manage services themselves. Colleagues who provide services to schools may wish to refer to information in that policy.

Sections J1 and J2 provide guidance on managing contractors and should be read in conjunction with Section E3 of the aforementioned Health and Safety Policy and Manual. Information relating to the use of the N1 form is also available on the Schools Information Website.
