

We make life safer

HAMPSHIRE
FIRE AND
RESCUE
SERVICE

Together we can reduce the impact of arson and anti-social behaviour in the countryside.

Fire destroys your local natural environment, threatens wildlife and puts you in danger.

Help us protect you and your countryside

What can I do?

Fire - Dial 999 call the fire service.

Anti-social acts - call the police if you see anyone acting suspiciously. Dial 999 (emergency) or dial 101 (non-emergency).

Try to give as much detail as possible:

Type of suspicious activity • Number of people
Gender • Conspicuous clothing • Vehicle details

For other issues relating to MOD land, ask for the DTE duty officer on 01420 483399. 495/0112

Stay safe in the countryside

- Carefully dispose of cigarettes.
- Avoid the use of naked flames and barbecues.
- Take your litter home, especially glass.
- You may be on military land so please be aware of exercises or manoeuvres.
- Take note of army bye-laws.

An early call could mean the difference between a small, easily controllable fire and a widespread, devastating fire.

Did you know?

44% of all fire calls in the Rushmoor and Hart area are to woodland and heath fires placing a huge demand on our resources.

Be vigilant and do your bit

Help protect the countryside and reduce the impact on the emergency services.
