

Emergency Planning (Including Bomb Threats and Suspect Packages) F5

Relevant Legislation

Management of Health and Safety at Work Regulations 1999
Civil Contingencies Act 2004

General

Information on these subjects is given in the documents '[School Emergency Plan](#) and [Guidance](#)' which have been prepared by the Civil Contingencies Team and uploaded to the Health and Safety webpage for convenience. However, Managers throughout the Council should read these documents and develop their own arrangements for dealing with extreme or catastrophic events.

Further advice on these topics can be obtained from the Civil Contingencies Team.

The related document '[Managing Temporary Crises in Schools](#)' may prove of interest. Again, Managers may find it useful to tailor the guidance to meet their own needs.

Information and checklists on bomb threats and suspect packages are now given in pages 37 to 39 of the above Emergency Plan and pages 19 of the Guidance and represents the most recent guidance from MI5.
