

Charges for a new bin:

£29 for a small (140-litre) recycling or general waste wheeled bin

£34 for a standard (240-litre) recycling or general waste wheeled bin

£63 for a large (340-litre) recycling or general waste wheeled bin

£380 for an extra-large (1,100-litre) recycling or general waste wheeled bin.

If available, you can request a second hand bin. This is subject to availability and on a 'first come first served' basis. The price is dependent upon its general condition and age but it will still be in a serviceable condition.

Please note: It is possible to buy a bin from another supplier provided they meet the council's specifications. Please contact us for more information. We aim to deliver a replacement bin within five working days of payment being received.
