Grants of up to £5,000 Available to Support the Performing Arts and The Conservation of Wildlife

Funding to Help Fuel Poor Households Heat Their Homes

The Trusthouse Charitable Foundation is offering Community Centres in deprived urban areas support. Joint applications from partnerships which possess the relevant skills and experience are encouraged. Match funding is required for projects over £50,000. The Foundation does not provide funding for activities which do not have a clear community benefit. Grants could cover, for example:

- Activities that support people who suffer social or employment exclusion. The Foundation will only consider projects that target these groups.
- Activities that contribute to the conservation of wildlife, the rescue, rehoming or care of animals.
- Activities that promote a better understanding of the environment and the country.
- Activities that promote or support the arts and creative industries, including for example: theatre, music, dance, film, exhibitions, literature, design and crafts.

The grants are available to:

- Charitable trusts and corporate sponsors.
- Not for profit organisations e.g. community groups, schools, and social housing associations.
- Voluntary organisations that work with asylum seekers, prisoners' families and people who are disabled.

Activities must promote National Vegetarian Week exclusively as the primary purpose of the activity. The funded activity must be largely vegetarian or vegan (so no alcoholic beverages, meat, fish, eggs, dairy products, or honey). The Foundation will only consider applications that are clearly linked to the week. The size of the grants is £500 and only one application can be submitted per week. However, an organisation can receive grants for multiple weeks during the year and up to three grants can be awarded to an organisation.

The next closing date is Wednesday 22 May 2019. Applications can only be considered from organisations or groups which are charitable, or Community Interest Companies supporting the armed forces community that own or control their assets and liabilities. To be considered for the next academic year, complete the Expression of Interest form. To be considered for the next academic year, complete the Expression of Interest form.

The Rowing Foundation works to promote the participation in rowing of young people in the UK. BBC Children in Need expect to make no more than 35 small awards, and no more than 15 large awards, of which a maximum of £5,000 will be awarded per grant. The Trust for Laboratory Animal Care will make a number of grants to support projects which focus on the development of care and support services for older people who are living with dementia. Grants will be made to animal welfare charities, and to organisations explicitly interested in the development of care and support services for older people who are living with dementia. The size of the grants is £10,000. How much can I be awarded? The eventual business can be not for profit or either.

Additional information about the application process for each Trust can be found on their websites.
