Report sent to petitioner	5 September 2018 <b>MET</b>
Report to Local Area Council	12 September 2018
Minute extract sent	08 October 2018
Decision/Current Position	<p>The provision of signage to discourage feeding of the birds and improved waste disposal facilities were, based upon recent similar concerns in Berwick and associated investigations, considered to be the most appropriate solution. It was proposed that Parish and Town councils could be approached to fund signage to remind residents and visitors not to feed the birds which would spread the cost and that work could similarly be done to try and improve waste disposal facilities to prevent the birds gaining access to food. This would be supported by campaigns and officers also working with the Town Council and Neighbourhood Services.</p> <p>Mr Soderquest advised that the Council was trying to find a long term solution and the culling of the gulls was not a long term solution.</p> <p>Discussion took place regarding problems countywide and members were informed of 2 experiments which had taken place in Newbiggin and Amble where bins were fitted with rubber flaps.</p>

	Mr Soderquest advised that officers would continue to work with Mr & Mrs Weir and other town councils.  <b>RESOLVED</b> that the information be noted.
