Akzonobel https://www.akzonobel.com/en/careers	Akzonobel are based in Ashington. They produce, and are experts in, making coatings - chances are you're only ever a few meters from one of their products. Active in over 150 countries, they have set their sights on becoming the global industry leader. It's what you'd expect from the most sustainable paints company, which has been inventing the future for more than two centuries.
British Volt https://www.britishvolt.com/careers/	<p>The Gigaplant site will be in Cambois, Northumberland, close to Blyth. Fully plugged into the national grid, ready to go, located next to an abundance of renewable energy.</p> <p>It is logical to build any battery cell manufacturing site as close to a renewable energy source as possible, in order to counter the energy intensity of the production process.</p> <p>In Northumberland renewable energy is plentiful. The entire area fully embodies the transition to a low carbon future. The county is a buzz of energy, and a proud home for Britishvolt's first full-scale Gigaplant. The site itself is a phoenix from the flames, having been the coal store for the former Blyth Power Station.</p>
