Agenda Item 10

Schools Forum

National Funding Formula & Dedicated Schools Grant (DSG) update

1. Purpose of the Report

To provide further additional information in respect of the continuing implementation of the National Funding Formula, the Dedicated Schools Grant (DSG) and associated 2020/21 Schools Funding information.

2. Recommendations

Schools Forum is asked to:

- a. Consider the report and other information included on the agenda (as shown below) and provide feedback as to any potential considerations with regard to the 2020/21 School Funding. In particular any principles or priorities in relation to the establishment of the 2020/21 formula values would be helpful.
 - F40 bulletin & the ministerial statement previously circulated under Communications;
 - Schools Financial Information (aggregated balances report)
 - Comparison of Formula Funding Values used in 2019/20 by the 12 NE region local authorities and Cumbria (See 2019/20 NE Formula Values Report).

- b. Approve the reclassification of £101,000 of 2019/20 Contingency funding to be used for the purposes of providing services, and to grow the capacity of the exclusion team, in order to reduce the number of permanent exclusions.

3. Background

Schools Forum should be aware of the key reasons why the DfE introduced the National Funding Formula:

- to make the funding formula fairer
- to make the funding formula more transparent
- to ensure that each child, with the same level of need, attracts the same level of funding, regardless of where they live

Initial guidance in 2017 suggested 2 transitional years in 2018/19 & 2019/20, with a move to a “hard” NFF with effect from 2020/21. Latest guidance from the DfE has reiterated their intention to introduce the “hard” NFF but there is no specific timescale currently for this. It has been confirmed that for 2020/21 local authorities will continue to have discretion over their schools funding formula, and in consultation, will determine values and allocations in their area.

4. Latest Information

While the Schools NFF for 2020/21 will continue to have the same factors as presents, important aspects to note for 2020/21 are:

- Subject to a current consultation exercise, minimum per pupil funding levels will be determined centrally, the figures will be:
 - £3,750 in primary for 2020/21, rising to £4,000 in 2021/22;
 - £5,000 for secondary in 2020/21
- Schools attracting their core NFF allocations will benefit from an increase of 4% in the formula's core factors, while key information is still outstanding the potential implications of this are examined later in this report.
- In 2020/21 Local authorities continue to set a Minimum Funding Guarantee (MFG), which protects schools, on a per pupil basis from significant year to year changes in pupil characteristics (e.g. fall in FSM numbers). For 2019/20 Northumberland set a figure of 0%, within the permitted range of -1.5% and +0.5% per pupil. For 2020/21 The Government has set the range from +0.5% to +1.84%, which is intended to mirror the protection in the real terms protection in the NFF.
- With the approval of Schools Forum, local authorities can transfer up to 0.5% from the Schools Block to the High Needs Block; to transfer more than this, a request must be made to the Department for Education. Forum will be aware that for 2018/19 and 2019/20, a 1% transfer has been agreed; while the Council's position will be dependent on final figures available, the potential implications of this are considered later in the report.

5. Potential Implications for Northumberland

No provisional 2020/21 DSG figures have yet been made available for forecasting and modelling purposes. These figures are usually made available in July each year, with final figures being provided in December, following the October 2019 School Census information. However it is appreciated the Schools Forum would benefit from indicative figures to inform discussions in relation to the setting of 2020/21 formula values.

At Appendices A and B illustrative figures are provided both for the LA and on an individual school basis, based on the information currently available, notably the ministerial statement on School Funding made on 09 September (copy provided under Communications) and the initial 2020/21 School Funding Operational Guide. However these figures are provided with following important caveats:

- Figures at both the LA and individual school level are provided on the basis of October 2018 pupil numbers; changes to pupil numbers will directly impact on budgets as the elements within the formula designed to provide some form of stability (e.g. minimum per pupil funding, MFG) are calculated on a per pupil basis, **so in short more pupils will result in additional funding, less in reduced funding.**
- Details of actual 2020/21 DSG figures and formula values are yet to be published by the ESFA; these are anticipated sometime in October. A summary of key dates is provided at Appendix C.

Three versions of the figures have been prepared based on reduced levels of transfer from the Schools Block to the High Needs Block in 2020/21, these are based on 0.75%, 0.6 % and 0.5%

transfers (i.e. a 25%, 40% or 50% reduction on 2019/20). The impact of this will see a reduction of between £449,000 to £898,000 in the transfer, or £11.48 – £22.96 per pupil. It must again be stressed that these are purely illustrative and based on 2018 pupil numbers, and that fluctuations in pupil numbers will impact significantly on individual school and pupil numbers.

As reflected in the minutes of the Formula Funding Committee held on the 17 September 2019, the view of the Formula Funding Committee was that no significant redistribution of funds should be made to the formula values to be used in 2020/21 and the previously agreed approach of a gradual move to NFF Values was reiterated. Some minor changes where figures are currently out of line with NFF could be considered, subject to affordability and the general principle of moving towards NFF values.

6. De-delegated funding

There is no indication of any changes to the de-delegation process for 2020/21. The total amount originally de-delegated was £878,208 (though this was subsequently reduced due to academisation) for a range of services including:

- Contingency for costs arising from reorganisation / restructuring;
- Trade Union Facility cover;
- Support to underperforming ethnic minority groups and bilingual learners; and
- Behaviour Support.

In relation to the contingency in respect of costs arising from reorganisation and restructuring the impact of subsequent re-organisation was to reduce the original figure of £456,993 to £366,908 but it is evident that this total will not be required during 2019/20. A total of £1,298 has been spent to date. In parallel with this, the work of the Task and Finish Group in relation to Permanent Exclusions has recognised and acknowledged the impact made by the creation of additional Inclusion Support Workers posts. Due to the increase in capacity it was possible for the team to begin some preventative work from November 2018 through to August 2019 and as a result this achieved a saving of £350,000 from the exclusion budget, which is funded from the high needs block. However the 2019/20 outturn is still currently predicted to be £200,000 higher than the original 2018/19 budget, which represents the levels to which we need to be working towards. In order to reduce the overspend and impact of the High Needs deficit, officers are seeking the agreement of Schools' Forum, specifically the maintained school members is sought to transfer £101,000 funding from the reorganisation contingency to allow more work in relation to the prevention of exclusions. This will not involve the deduction or de-delegation of any further sums from the Schools Block in 2019/20. The transfer is being sought at this point to allow work to commence this term, as a reduction in the number of exclusions has been identified as a priority following the Joint Targeted Area Inspection (JTAI) and SEN review. This would require on-going support into 2020/21. It is proposed that in 2020/21 this will be included as part of the Inclusion budget from the High Need Block. The estimated costs of this would be £2.55 per pupil for 2020/21.

7. Next Steps:

Central to this is the issue of the Authority Proforma Tool (APT) by the ESFA to local authorities, together with 2020/21 illustrative allocations (based on previous years data) and associated documents. It is hoped that this is in time to enable consultation on more specific proposals at the next Schools Forum meeting on Wednesday 20 November. In the meantime Schools Forum

may wish to consider any issues for exploration at the November meeting, as well as the nature of any wider consultation with schools.

8. Summary and Conclusions :

The initial views of Schools Forum in relation to 20/21 School Funding are requested in line with the recommendations in section 2 of this report.
