Pen Portrait

Steve Leighton
Training, Health and Safety Manager
Berry Global (Plenmeller)

I have worked at the Plenmeller factory for over 20 years for various employers, starting as a packer in 1999 and working my way up to the role of H&S manager which I started in October 2020.

I'm originally from Allendale, but have lived in Bardon Mill for almost 12 years. In the past I have been both a parish councillor and a school governor in Allendale. In my spare time I enjoy attending live music events both locally and nationally, I also have a mobile disco and host occasional disco nights in local bars and village halls.
