 Parking account: a breakdown of income and expenditure on the authority's on-street and off-street parking accounts.

Accounts Narrative:

Parking services are managed within the Council with two distinct elements to the service delivered to the public: on-street car parking and off street car parks. The latter incorporates 115 managed car parks of various types and is the element included in this note as on-street car parking is not subject to competitive forces. Consultations were held with local communities during 2013-14 aimed at introducing a policy specific to each location. This resulted in 8 car parks retaining charging with the remainder operating either through time restrictions via the use of a disc or free all day parking. Expenditure in the service has increased in 2016-17 primarily as a result of a £0.24k increase in capital charges.

Q11. Our Civil Enforcement Officers do not have performance targets set regarding number of penalty charge notices.
