

# HMICFRS Inspection - Friday Update 10

## Position Statement & Self Assessment

### Background

HMICFRS will ask every English Fire & Rescue Service to complete a position statement and self assessment as part of the inspection process.

### What is the Position Statement?

The position statement poses a number of general questions to allow the Chief to provide the inspectors an insight into NFRS. The statement will cover general information about the service and the current challenges we face. This will be a maximum of 1,000 words.

### What is the Self Assessment?

The self assessment allows the Chief to provide an assessment of NFRS in relation to each of the inspection 11 diagnostic areas which sit under the 3 core questions (See Friday Update 5):

- How effective is the Fire Service?
- How efficient is the Fire Service?
- How well does the Fire Service look after its people?

This response is limited to 300 words per diagnostic area - 3,300 words in total.

### When Is This Due?

We have just received our request last week and are working towards the deadline of the 24th of September 2018.

### Any questions?

Please get in touch with the internal NFRS  
HMI team via
