### **YOUR COMMENTS ON THE CASE**

As a local resident I object most strongly to this monstrosity being erected in this wild unspoilt iconic landscape. I am most concerned about the height of this gruesome creation, it's three times taller than the Angel of the North and would blight the landscape for miles around, if you look at how far the turbines are visible you will get the idea and this thing will be a permanent scar with a massive carbon footprint.

I am most concerned with the environmental impact of the vast amount of concrete that will be needed to keep this thing stable in an area prone to gales.

I grew up in Newcastle upon Tyne in the 1960's and even then as a child I was aware of "The Wilds of Wanney" as it was an oft used phrase among the old biddies of the neighbourhood to describe a remote and wild place.

I don't believe it will bring in beneficial tourists, I think it will just bring traffic, litter and damaged verges.

I don't believe this has anything to do with her majesty, it is simply a vanity project that adds nothing to the local area and takes much away.

I urge you to refuse this appeal.
