

### Appendix C: Summary Schedule of Planning Permissions for Self/Custom-Build Plots

Sites with full or outline planning permission for residential development that have specifically stated in the application or otherwise indicated that one or more plots on the site may be available for self-build and custom housebuilding opportunities.

Sites now completed, with lapsed permissions or otherwise no longer available are shaded red.

Where sites were permitted pre-April 2016 and some plots had been completed before then, the Dwelling Plots column records the original permitted numbers in brackets with only the residual number of plots that were still live and available after that date shown to be counted towards the numbers.

Live applications pending decision are also shown in brackets.
