

## **Northumberland County and National Park Joint Structure Plan**

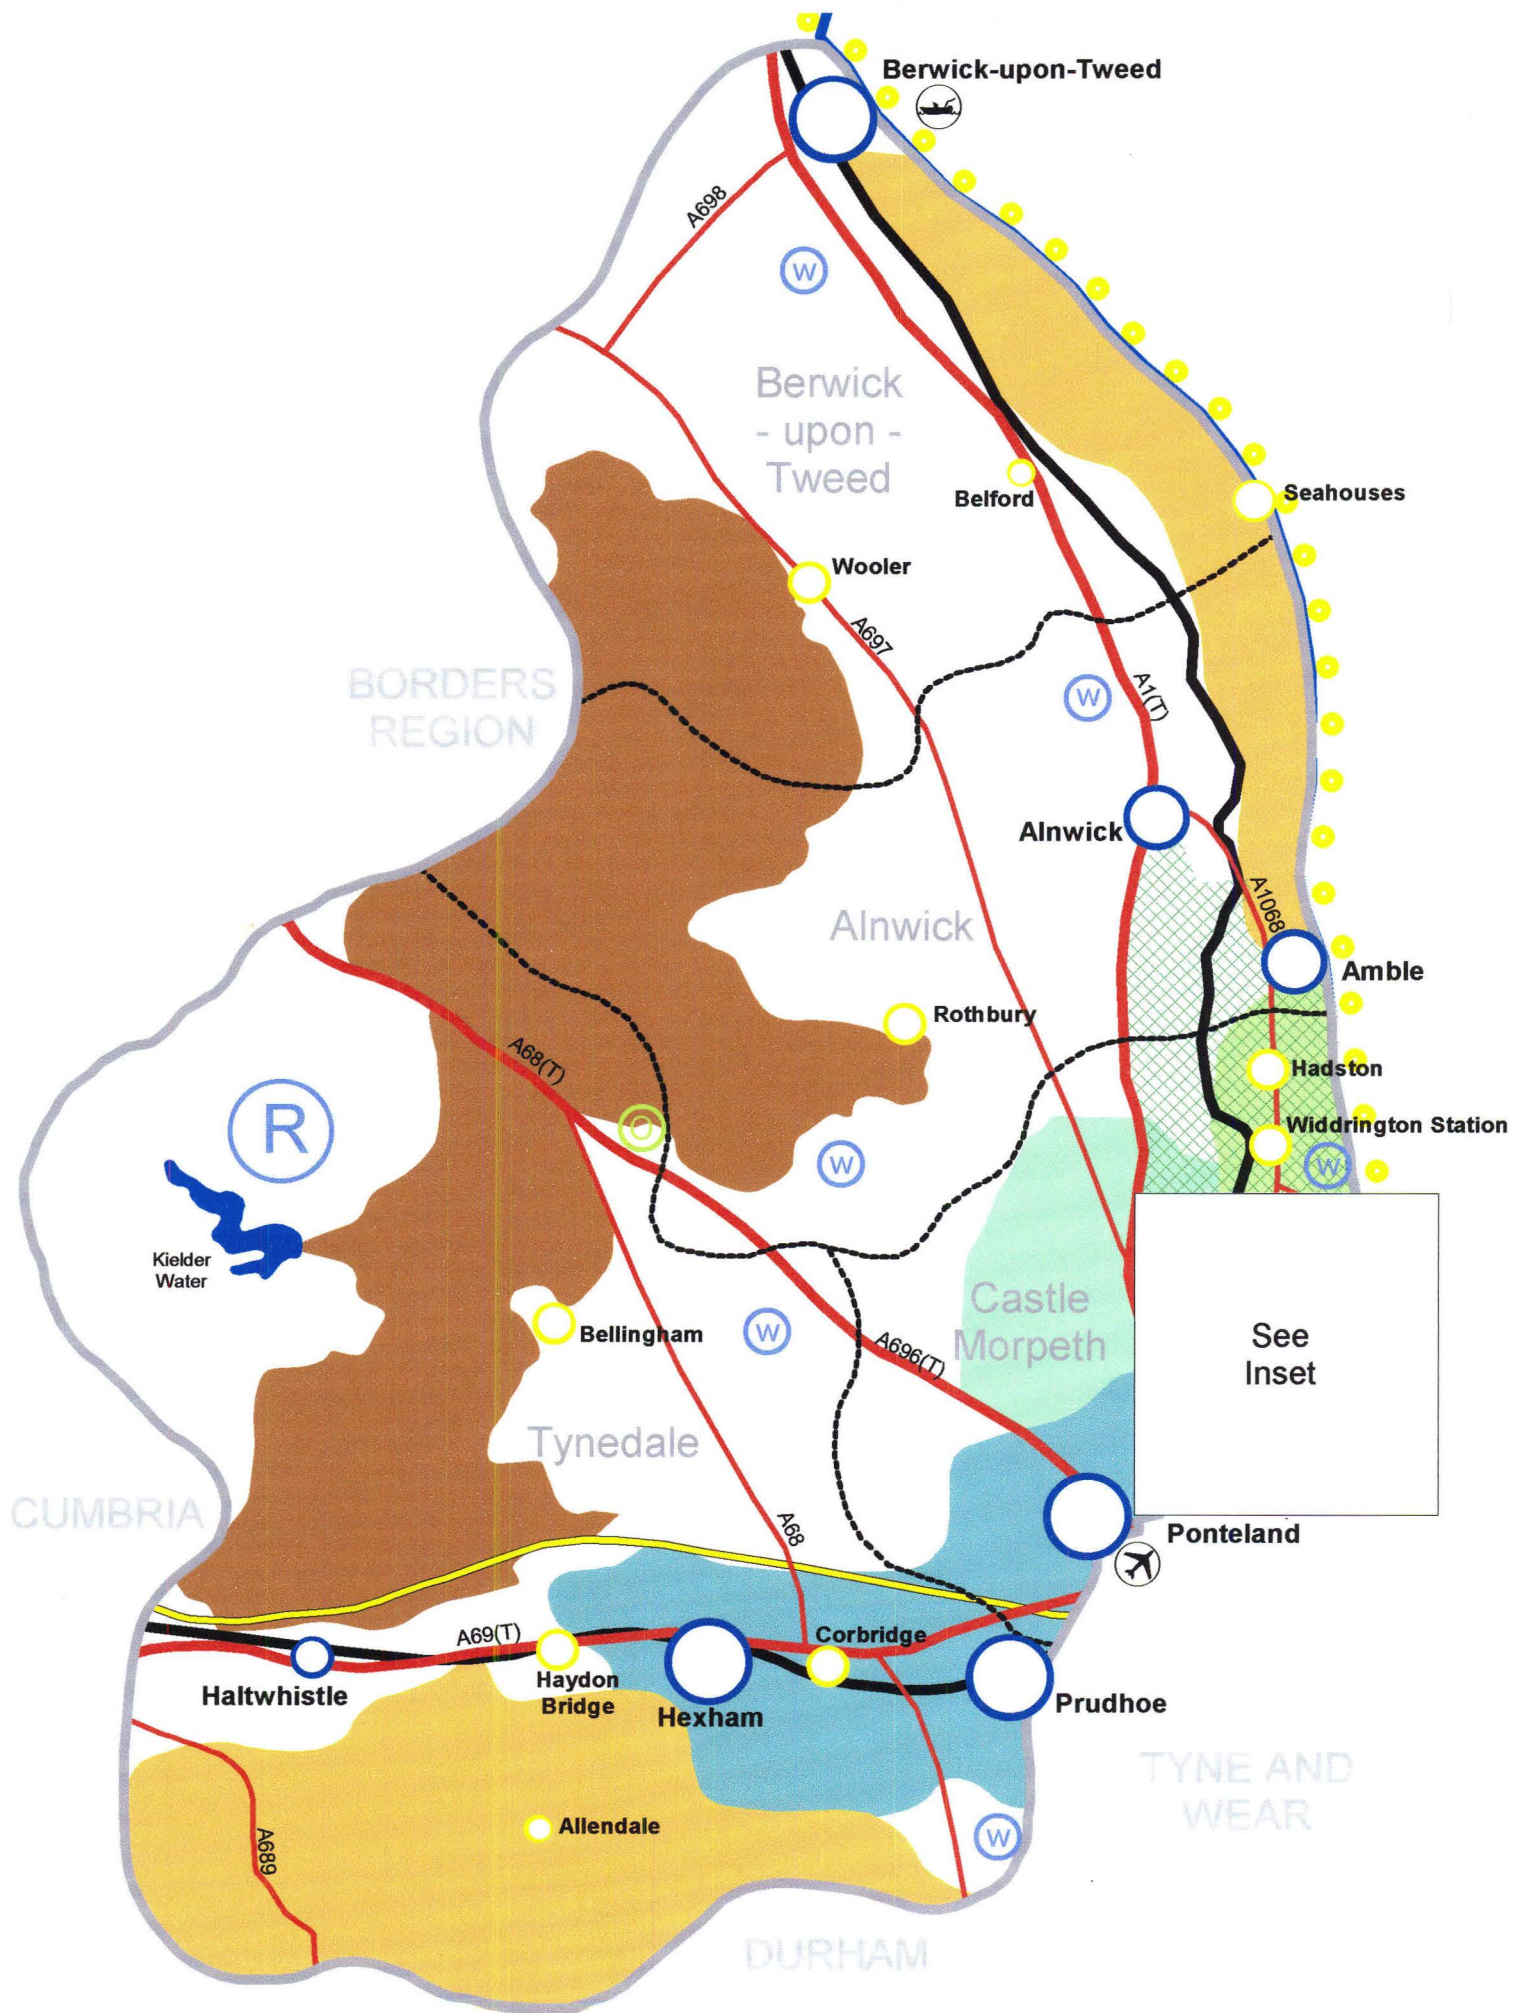

Within Northumberland, the [North East of England Plan Regional Spatial Strategy to 2021](#) (published 15 July 2008) has replaced the all policies within the Northumberland and National Park Joint Structure Plan First Alteration (February 2005), with the exception of Policy S5 - Extension to the Green Belt. This policy is not being replaced in the interests of maintaining a satisfactory strategic planning framework for the preparation of Local Development Documents. Policy S5 – Extension to the Green Belt is detailed below:

### **Policy S5 – Extension to the Green Belt**

*An extension to the Green Belt will extend from the existing boundary northwards to lie:*

- *to the west of Netherwitton, Hartburn and Belsay;*
- *north of Longhorsley and west of Widdrington Station, excluding the Stobswood Opencast site;*
- *east of Pegswood;*
- *west of Ashington, Guide Post, Bedlington and the A1068; and*
- *east of Bothal, Hepscoth, Nedderton and Hartford Bridge.*

*Precise boundaries, including those around settlements, should be defined in Local Plans having particular regard to the maintenance of the role of Morpeth as defined in Policy S7 and to the sequential approach in Policy S11.*
