

Funded by UK Government

Additional £2.78m highways maintenance works made possible by reallocated HS2 funding 2024-25

Local highways maintenance: additional funding from 2023 to 2034

On 4 October 2023, the government announced £8.3 billion of additional highways maintenance funding over the period 2023 to 2024 and the next 10 years for local road resurfacing and wider maintenance activity on the local highway network. [Further information is available here.](#)

Northumberland County Council was awarded £2,783,000 funding for 2024 to 2025. The funding 2023-24 funding has been allocated to carriageway repair schemes at the locations detailed below:

This additional funding has been used to allow an increased number of maintenance schemes to be included within our proposed 2024-25 LTP highway maintenance programme and is aimed at addressing the structural decline of our roads. A risk based approach has been used to determine priorities for maintenance and is based on priorities at a strategic level, transport network level and asset maintenance level.

2024 - 25 Highway Maintenance LTP Additional DfT Funded Programme April 2024

Programme subject to final approval
